TECHINICAL RESCUE REQUEST PROCEDURE

This procedure is intended to give clear direction as to how to request assistance from Macomb County's Technical Rescue Teams in the event your department needs mutual aid on scene.

- Contact Central dispatch via radio on 74F911
- Explain to dispatch exactly what type of resources you are requesting and where you want them to respond
- Make sure there is an ops channel assigned and dispatch gives that ops channel to Macomb County
- The incident commander **MUST** give their cell phone number to Central Dispatch to give to Macomb County so that the Tech Team Leader from Macomb County can communicate directly to the Incident Commander

Macomb County Dispatch: 586-469-5502
